THANKSGIVING DAY.

reclam fion by the Gr Thanhagiving Hymn Writt-a Ex-pressly for the Secasion-Programme of the Day.

PROCLAMATION. THE STATE OF ORIO, EXECUTIVE DEPARTMENT, April 8, 1865.

The God of battles has blessed our armies, and the glorious cause of human freedom. Under His approving smiles the patriotic and wave men in the field have achieved unparalleled triumphs. The rebel Capital contempt. This last order is well underhas been conquered, and given back to the stood to have been obtained for the express Union, and the army that held it in rebel- purpose of relieving a few wards of the city tion has been broken and scattered. The military power of the rebellion-the strongest obstacle to peace-has received a terrible shock, and our gallant armies are pursuing it to final extinction. For all this we owe praise and thanks- towns in the country. A few figures will

giving to Almighty God, recognition of the show the gross injustice of the entire proservices and sacrifices of our noble soldiers, and rejoicing over the triumph of the right, the crushing of the rebellion, and an

early return to peace and prosperity in the land.

It is therefore recommended that Friday next, the 14th day of April—being the anniversary of the fall of Fort Sumter-be generally observed by the people of the State, as a day of thanksgiving to God, and general rejoicing; that religious assemblages and observances mark the day, and the evening be given to bonures, illuminations and the thundering of artillery, public assemblages and speeches, and such whole number) unfilled. Now what jus-tice, at this late day to open up the whole question of quotas for the fourth time, in the hope of benefitting about one fourth of the towns and wards, at the expense of the remaining three-fourths? The eight days notice may have been sufficient for correcting the eurollment lists of the city, other manifestations as may be suggested, to appropriately mark the heroic deeds of our armies, and the general joy of our people at the early restoration of the Constitution and good government.

Witness my hand at Columbus the day and Witness my nacc year above written. JOHN BROUGH.

And while Hope smiles and cheers, "In God we'll trust," This day will be quite universally set spart to public thanksgiving to God, for the great victories which have recently crowned the National armies in their efforts to put down the wicked rebellion which has, for four terrible years, been scourging and

gested. PROGRAMNE There has been no general plan fixed upon, so far as we have been able to learn, for the celebration of this day. At nine clock this morning a salute will be fired by the Brooklyn Battery, on the Public square. At half past ten o'clock there will be religious services in the various churches. A Union thanksgiving meeting of several of the churches will be held in the First Presbyterian Church, Ray, J. A. Thome will preach in his church on Detroit street,

West Side, a sermon on the "Raising of the Fing on Fort Sumter." The celebration in the after part of the day and evening, we presume, will be a niscellaneous affair, consisting of cannonfiring, music, speeches, bonfires and other

pyrotechnic displays. Business, we trust, will be universally suspended. We have already noticed the fact that the Banks and Banking Houses of the city will be closed to-day, and that the Board of Trade will not be in session, nor will the places of business of the members every disadvantage. While heavy snows have provailed in the opper country, the ice is comparatively light, and it is believed that by May let a passage may be effected through to Lake Superior. MORNING LEADER OFFICE, TRUMBULE EVENING, April 18, 1865. The upward course of gold since the decline that lowed the surread r of Lee indicates a purpose the part of operators to return the price to 150, and from present appearances we should not be surprised if it steadily gravitated to this point, unres the surrender of Johnson, or some no le s po-tent event, shall intervene to influence another deline. At present the market seems to be uncom-nouly free from speculative feeling, and transc one on a legitimate scale are probably fully squal those of a speculative character. To day the ares of gold was upward, though no decided change was of-civil, and the fluctuations showed a ery steady market, the difference b tween the ex ces being only about I per cent. The decline of the past two days in rallway stocks is attributed by the kew York papers to the pres sure of outside operators, who had bought at the panic, to realize before their gains could slude their grasp. Sovernment Bonds were hardly so firm to-day, re-twenties having sold down to 107. The cause

s found in the receipt of large orders from Gir many to sell without limit as to price, under which as detable amounts were thrown upon the marat. In this market there is at present seasonly my inquiry, and prices are nominal.
